SUBSCRIBER AGREEMENT

YOU MUST READ THIS SUBSCRIBER AGREEMENT BEFORE APPLYING FOR, ACCEPTING, OR USING A CERTIFICATE FROM MTNLTRUSTLINE. IF YOU DO NOT AGREE TO THE TERMS OF THIS SUBSCRIBER AGREEMENT, DO NOT APPLY FOR, ACCEPT, OR USE THE CERTIFICATE.

This Subscriber Agreement details the terms and conditions regarding Your application ("Certificate Application") for a Certificate and, if MTNLTRUSTLINE accepts Your Certificate Application, the terms and conditions regarding Your use of the Certificate to be issued by MTNLTRUSTLINE to You as "Subscriber" of that Certificate.

This Subscriber Agreement will become effective upon Your submission of the Certificate Application to MTNLTRUSTLINE or an MTNLTRUSTLINE RA. By submitting Your Certificate Application You are requesting MTNLTRUSTLINE to issue a Certificate to You and are expressing Your agreement to the terms of this Subscriber Agreement. MTNLTRUSTLINE certification services are governed by the MTNLTRUSTLINE Certification Practice Statement ([MTNLTRUSTLINE CPS](#)) as amended from time to time, which is incorporated by reference into this subscriber agreement. You agree to use the Certificate and any related CA services only in accordance with the [MTNLTRUSTLINE CPS](#). By applying for a Certificate You confirm that You have read the [MTNLTRUSTLINE Certification Practice Statement](#) and agree to all its terms.

1. DESCRIPTION OF CERTIFICATES.

A Certificate is a digitally signed message that contains a Subscriber's public key and associates it with information authenticated by MTNLTRUSTLINE or an MTNLTRUSTLINE RA. MTNLTRUSTLINE under this Agreement offers three distinct classes ("Classes") of Certificates, Classes 1, 2, and 3. Each class, of Certificates provides specific functionality and security features and corresponds to a specific level of trust. You are responsible for choosing which Class of Certificate You need. The following subsections state the appropriate uses and authentication procedures for each Class of Certificate. For more detailed information about MTNLTRUSTLINE's digital certificates, please see the [MTNLTRUSTLINE Certification Practice Statement](#).

1.1. CLASS 1 CERTIFICATES.

Class 1 Certificates are issued to Individuals with valid e-mail addresses. Class 1 validation procedures are based on the assurance that the subscriber's Distinguished Name (DN) is unique and unambiguous within MTNLTRUSTLINE Repository and that the e-mail address in the DN is associated with the Public Key in the Certificate. Class 1 Certificates are appropriate for Digital Signatures, encryption, and electronic access control for non-commercial transactions where proof of identity is not required.

1.2. CLASS 2 CERTIFICATES.

Class 2 Certificates are issued to Individuals, and Devices. Class 2 validation procedures are based on the assurance that subscriber's Distinguished Name (DN) is unique and unambiguous within MTNLTRUSTLINE Repository and that the identity of the Subscriber based on information provided by the Subscriber in the Certificate Application does not conflict with the information in a MTNLTRUSTLINE approved and well recognized business or consumer database(s) (Validating Database). Class 2 Individual Certificates are appropriate for Digital Signatures, encryption, and electronic access control in transactions where proof of identity based on information in the Validating Database is sufficient. Class 2 Device Certificates are appropriate for device authentication; message, software, and content integrity; and confidentiality encryption.

1.3. CLASS 3 CERTIFICATES.

Class 3 Certificates are issued to Individuals, Organizations, Servers, Devices, and Administrators for CAs and RAs. The validation procedures for Class 3 Certificates issued to Individuals are based on the personal (physical) presence of the Subscriber before a MTNLTRUSTLINE authorized person that confirms the identity of the Subscriber using a well-recognized form of government issued identification and one other identification credential. The validation procedures for Class 3 Certificates issued to Organizations are based on a confirmation that the Subscriber Organization does in fact exist, that the organization has authorized the Certificate Application, and that the person submitting the Certificate Application on behalf of the Subscriber was authorized to do so. Class 3 Individual Certificates are appropriate for Digital Signatures, encryption, and access control in transactions requiring a high assurance about the Subscriber's identity. Class 3 Server Certificates are appropriate for server authentication; message, software, and content integrity; and confidentiality encryption.

1.4. TEST CERTIFICATES.

In addition to the three Classes of Certificates described above, MTNLTRUSTLINE also offers 'Test' certificates to its Subscribers. These 'Test' certificates are solely intended for evaluating the technical implementation of MTNLTRUSTLINE PKI and ascertaining the interoperability of MTNLTRUSTLINE Certificates with various applications and are not to be used or relied upon for any other purposes. The 'Test' Certificates are offered by MTNLTRUSTLINE on an 'as is' basis without any assurances about the accuracy, authenticity, integrity, or reliability of information contained in 'Test' Certificates. MTNLTRUSTLINE disclaims all warranties whatsoever with respect to 'Test' Certificates.

2. CERTIFICATE APPLICATION PROCESSING.

Upon MTNLTRUSTLINE's receipt of the necessary payment and upon completion of authentication procedures required for the Certificate You have applied for, MTNLTRUSTLINE will process Your Certificate Application. MTNLTRUSTLINE will notify You whether Your Certificate Application is approved or rejected. If Your Certificate Application is approved, MTNLTRUSTLINE will issue You a Certificate for Your use in accordance with this Subscriber Agreement. Your act of receiving a certificate from MTNLTRUSTLINE or an MTNLTRUSTLINE RA, or downloading a certificate, or installing a certificate from a message attaching it is considered Your acceptance of the Certificate. After You pick up or otherwise install Your Certificate, You must review the information in it before using it and promptly notify MTNLTRUSTLINE of any errors. Upon receipt of such notice, MTNLTRUSTLINE may revoke Your Certificate and issue a corrected Certificate.
